Program: Joint Undergraduate Computer science with FDU

Fix for code :)

1. To fix the code, I would remove the unnecessary closing `</img>` tag

```

```

2. replace the incorrect `<il>` tags with `<li>` tags.

```
<div>  
  <h1>Information 2</h1>  
  <ul>  
    <li><a href="">First</a></li>  
    <li><a href="">second</a></li>  
    <li><a href="">third</a></li>  
  </ul>  
</div>
```

3. Additionally, I would add a closing `</ol>` tag for the unordered list and fix the `src` attribute of the anchor tags to `href`.

4. Also there is spelling mistake in female  
Ignore if you want

```
<label for="gender">female</label>
```

Working Code 😂

```
<!DOCTYPE html>  
<html lang="en">
```

```
<head>  
  <meta charset="UTF-8">  
  <meta name="viewport" content="width=device-width,  
initial-scale=1.0">  
  <title>Document</title>  
</head>
```

```
<body>  
  
  <div id="main info">  
    <h1>Information 1</h1>  
    
```

```
  </div>
```

```
  <div>  
    <h1>Information 2</h1>  
    <ul>  
      <li><a href="">First</a></li>  
      <li><a href="">second</a></li>  
      <li><a href="">third</a></li>  
    </ul>  
  </div>  
</form>
```

```
<label>Enter your full name</label><br>
<input type="text"><br>
<label>Enter your email</label><br>
<input type="email" name="email"><br>
<label>Enter your password</label><br>
<input type="password" name="pass"><br>
<label>confirm your password</label><br>
<input type="password" name="pass"><br>
<br><label>Enter your gender</label><br>
<input type="radio" id="gender" name="gender" />
<label for="gender">male</label>
<input type="radio" id="gender" name="gender2" />
<label for="gender">female</label>
```

```
<select name="country" id="country">
<option>Select an option</option>
<option>Georgia</option>
<option>USA</option>
<option>Australia</option>
</select>
```

```
</form>
```

```
<button type="submit" > Click </button>
```

```
</body>
```

```
</html>
```
